## BEV SITUATION IN THAILAND

### BEV Trends in Thailand market

### Number of charging stations

**Thailand has over 1,479 stations in 77 provinces coverage nationwide and "You will find EV charging station approximately every 3.2 KM in Bangkok"**

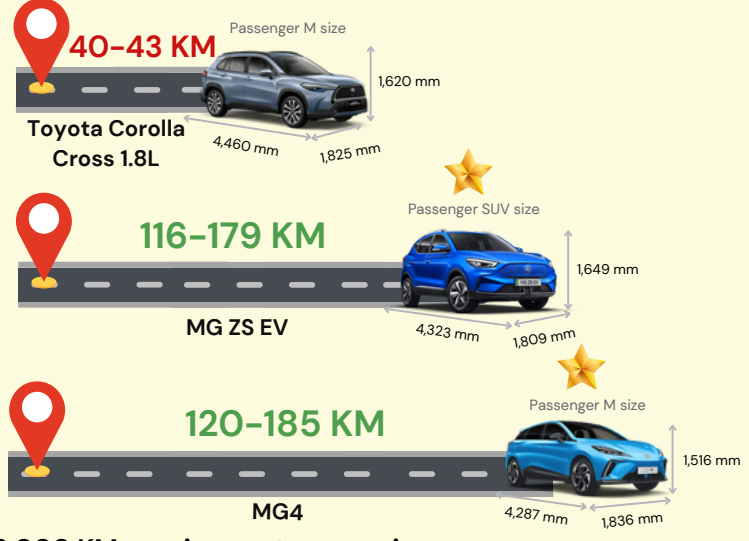

\*Remark : Total number of charging stations nationwide is data as of 6 July 2023 from Electric Vehicle Association of Thailand (EVAT) and number of charging stations counted from 10 charging suppliers (EA Anywhere, Evolt, EV station pluz, PEA Volta, Elex by EGAT, MEA, on-ion, Haup, Sharge, MG)

### BEV benefits compare to ICE

	 <b>BEV</b>	<b>VS</b>	 <b>ICE</b>
<b>Environment</b>	Quiet & Zero Emission		More noise & create CO <sub>2</sub>
<b>Driving Performance</b>	More fun to drive from motor acceleration		Less Torque --> Slower accel responsiveness
<b>Energy Cost Saving (THB per km)</b>	Less than 1 THB		More than 2 THB

### Running Cost of BEV vs ICE

#### How far each car can go using 100 THB

#### 3,000 KM running cost comparison

\*Remark : Fuel price calculated from Gasohol E20 average price between 3-17 Oct 2023 = 36 THB and PEA Volta Off-Peak charging rate = 4.5 THB/KWh

**SMAT would like to offer special packages 4 years and 1 year subscription for MG operating leasing to you. If you are interested, please feel free to contact our sales.**
